Just confirmed that all UT regulated drinking water systems are operational.

Navajo utilities made the call Saturday at noon to turn off their DW supply wells in two towns – Aneth and Montezuma Creek. San Juan County Emergency Mgmt is providing alternate supply. Still waiting for a call back from Region 9 DW to confirm details and get more info for Navajo.

Thanks Sarah. Your colleague at Region 9 might know more too. Would be good to coordinate.

Hi all –

I'm waiting for a call back from UDEQ drinking water folks to confirm this; they are not aware of impacted communities in UT and suspect it may be on the Navajo reservation. UDEQ will follow up as soon as they confirm. I did speak with Angelia. She reported some info that was different than what I heard and wasn't able to confirm any details herself.

I'll get you more info asap.

Thanks

Yes – I'll follow up. I have not heard that. Halchita (on the Navajo) has requested a water trailer from BLM because they are short on water for other reasons (line breaks). They do use the San Juan River for DW.

Should I report the answer back to you?

Hi all,

I heard at the end of the call that there are 2 utah communities without water. These two folks asked to be invited to the 2pm call. Are we aware? We need to be prepared to discuss for the 2pm call.
